

Fire Safety Tips for Commercial Facilities and Office Spaces

- Ensure that all fire alarms and sprinkler systems are installed and regularly maintained.**
- Develop and practice an evacuation plan, making sure all employees are familiar with it.**
- Keep all exit routes and fire doors always clear of obstructions.**
- Conduct regular fire drills to ensure everyone knows how to evacuate quickly and safely.**
- Install emergency lighting in stairwells and corridors to guide people during an evacuation.**
- Ensure that all electrical equipment is properly maintained and inspected regularly to prevent electrical fires.**
- Store flammable materials in approved containers and keep them away from ignition sources.**
- Have fire extinguishers readily available and ensure all employees know how to use them.**
- Implement a no-smoking policy within the building and designate safe smoking areas outside.**
- Ensure all employees are trained in basic fire safety procedures, including the use of fire extinguishers and the importance of reporting fire hazards.**

The logo for VALOR FIRE SOLUTIONS features the word "VALOR" in a grey, serif font, "FIRE" in a red, serif font, and "SOLUTIONS" in a grey, sans-serif font. The text is centered and flanked by horizontal lines. A large, stylized fire flame graphic is positioned behind the text, and a shield-shaped graphic is visible in the background of the page.
